* Cut a 54mm hole into the soil pipe.

* Solvent weld around the hole and the flange of the Strap on Boss.

* The Strap on Boss has a built-in fall of 2½ degrees.

* The word ‘top’ is embossed on the fitting to show the correct way up.

* Push fittings together to secure bond.

* Squeeze the clips at the back together to secure the Strap on Boss to the soil pipe.

* For Push-Fit connections 32/40/50mm to pipe, use rubber boss adaptors SP10/11/12.

* Solvent cement fittings together to secure bond.

* For Solvent Weld connections, use solvent weld adaptors SP20/21/22.
